Date: _____

BURNED

Fire Scientist Questions Arson

<http://tinyurl.com/49czsol>

Directions: As you watch the 20/20 episode, complete the chart below by listing the evidence as it is presented to you.

CASE	EVIDENCE THAT SUPPORTS ARSON.	EVIDENCE THAT SUPPORTS ACCIDENTAL FIRE.
1. Amanda (in Louisiana)		
2. Kristine (in Indiana)		
3. Curtis (in Texas)		

After completing the table, identify each piece of evidence with either a **P** for **physical** evidence or a **T** for **testimonial/eyewitness** evidence.

What is the outcome?

Case 1	
Case 2	
Case 3	

Do you think each outcome is fair? Explain your response.

Case 1	
Case 2	
Case 3	

As a forensic scientist, what was *the most important thing* you learned from this program that will help you successfully solve your next arson investigation?
