The Moving Man
Adjust the variables for starting position, velocity and acceleration to match each graph. You might want to hide the acceleration window until you need it.

Graph 1
Position = _________ m
Velocity = _________ m/s
Acceleration = _________ m/s²

Graph 2
Position = _________ m
Velocity = _________ m/s
Acceleration = _________ m/s²

Graph 3
Position = _________ m
Velocity = _________ m/s
Acceleration = _________ m/s²

Graph 4
Position = _________ m
Velocity = _________ m/s
Acceleration = _________ m/s²

Graph 5
Position = _________ m
Velocity = _________ m/s
Acceleration = _________ m/s²
